

# EASY-STEP GUIDE FOR NEW STUDENTS PRIMARY PLUS, LOWER/UPPER SECONDARY

Primary Plus and Lower or Upper Secondary students should join Edmodo themselves, and can then have one or several Parent accounts connected to them.

We strongly recommend that you begin with the creation of the Student account for your child.

## Creating the Student Account

Please check the steps below:

- Access on a desktop computer or a laptop the join link from the message sent by our Customer Services Team.
- On the newly opened page, select to **Create a new account**.

- When asked *Who are you?*, please choose ***I am a student***, as you are creating the account for your child.

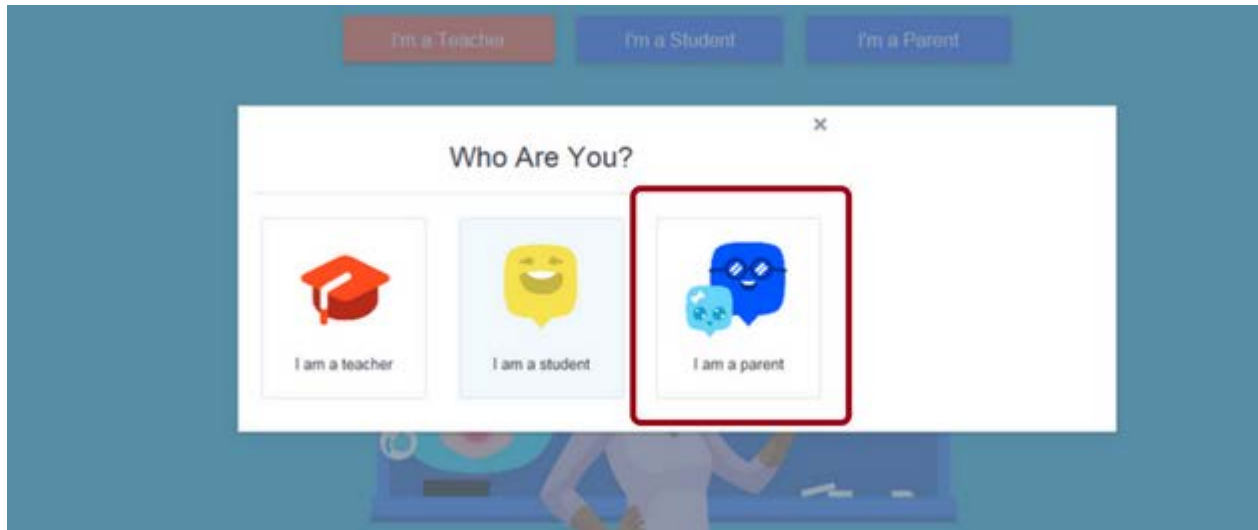

- In the newly opened form, please enter your **child's first and last name**.
- The **username and the password** should be unique and easy to remember.
- **The email address is optional**, but we advise you to type it in, should you ever forget your password. However, please note that the same email address cannot be used for a Student account and a Parent account.

Once you submit the filled-in online form, you may need to wait for your join request to be approved by someone from our team.

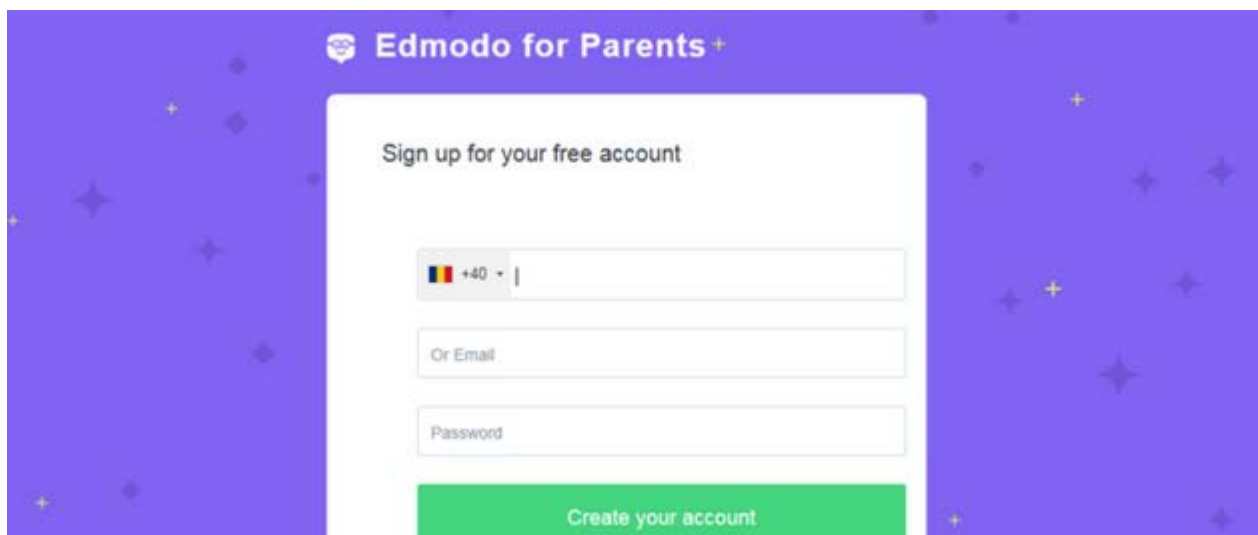

## Creating the Parent Account

If you are reading this section, it is safe to assume that you have already created a Student account for your child. First, while in your child's account, **look for the unique Parent code**. Scrolling down, you will find it in the **bottom left corner of the homepage**. Make a note of it, **log out**, and then please check the steps below:

- Access on a desktop or a laptop the join link from the message sent by our Customer Services Team.
- On the newly opened page, select to **Create a new account**.
- When asked *Who are you?*, please choose **I am a parent**, as you are creating an account for yourself.

- **Fill in the requested information.** Please note that the same email address cannot be used for a Student account and a Parent account.

A screenshot of the "Edmodo for Parents" sign-up page. The page has a purple background with white stars. The main heading is "Edmodo for Parents +". Below it, the text says "Sign up for your free account". There are three input fields: a phone number field with a dropdown menu showing "+40", an "Or Email" field, and a "Password" field. At the bottom, there is a green button labeled "Create your account".

Once you submit the filled-in online form, you may need to wait for your join request to be approved by someone from our team.

## What if I have several children?

Please follow the steps below to add the second or third child to your already existing Parent account.

- You need to **obtain the unique Parent code for each Student account**. (Please note that every child has a distinct code).
- Log into your Parent account. Use the **Add Student option at the top of the page, on the left**. Or, in your Account Settings select *Add Student* on the Students tab.
- Type in the Parent code to observe your other child's account, as well.
- Repeat for any other Students you need to add to your Parent account.

## More on the Parent Account

The most important benefit is that you can observe most of the activity in your child's classroom, as well as what your child is doing in their Edmodo group.

Whenever the teacher posts a new Assignment, enters a new grade, updates the Planner or adds a comment to a student's Assignment submission, you will see the activity related to your child. All of this information is automatically shared with the Parent Accounts as soon as the teacher shares it with his/her students.

While you can observe various activity on your account, you will not be able to see the folders shared with the group.

YOU WILL ALWAYS SEE	YOU WILL ONLY SEE THE FOLLOWING IF INCLUDED
<ul style="list-style-type: none"><li>• Assignment and Alert posts</li><li>• Direct messages between your child and their teacher</li></ul>	<ul style="list-style-type: none"><li>• Note posts sent to parents</li><li>• Polls sent to parents.</li></ul>

Please note that while the teachers can send a group message to all parents with Edmodo account, they cannot message individual parents.

It is also important to remember that parents cannot participate in posts and they can only send direct messages to the teacher via the mobile app. However, the Edmodo developers are working on adding this feature to the desktop website, as well.

## Account Support

### Is creating the Student account a bit difficult?

Your child can ask his/her class teacher to print them a handout with the joining instructions.

### Having trouble finding the Parent code?

[Contact our Customer Services Team](#). But please keep in mind that they can help only if the student has already joined an Edmodo group in the current session.

### Need a password reset for an account?

[Contact our Customer Services Team](#). But please keep in mind that they can help only if the user has already joined an Edmodo group in the current session.

### Did something else happen?

Visit Edmodo's Help Centre by clicking [here](#).
